SUMMARY:

.NET Developer with hands-on experience in building web applications using ASP.NET MVC, C#, SQL Server, and JavaScript (jQuery). Experienced in developing scalable modules, implementing RESTful architecture, optimizing SQL queries, and integrating backend logic with dynamic UI components. Skilled in problem solving, debugging, and delivering clean, maintainable code following best software development practices.

EDUCATION:

Dev Bhoomi Uttarakhand University
Uttarakhand, India Aug, 2023
*BCA, **7.4** CGPA*

SKILLS:

- Programming Languages: C#, JavaScript(JQuery), SQL
- Frameworks & Technologies: ASP.NET MVC, Web API, ADO.NET, REST API Development, OOPs
- Database: SQL Server, MySQL
- Web Technologies: HTML, CSS, Bootstrap
- Tools : Visual Studio, SSMS, SSRS, Git, IIS, Postman

EXPERIENCE :

GBKC GLOBAL Pvt Ltd

IT Executive / .NET Developer Oct 2024 – Jan 2026

- **Developed web applications using ASP.NET MVC, C#, and SQL Server**, working across both frontend and backend to deliver scalable and user-friendly ERP modules.
- Built and enhanced **HRMS, Payroll, and Project Management features** using MVC architecture, REST-style data flow, and optimized database structures.
- Collaborated with cross-functional teams to gather business requirements and **convert them into technical .NET Solutions** that improved workflow efficiency.
- Improved **database performance and security**, handled query optimization, indexing, and scheduled backups to ensure smooth application running.
- Engineered and deployed multiple **optimized SQL procedures** to automate data cleansing and validation process, reducing data processing time by 40% and improving data accuracy by 25%.

PROJECT EXPERIENCE :

- **HRMS Web Application** (Human Resource Management System) :

  Developed core modules for a HRMS system using ASP.NET MVC and SQL Server, creating optimized stored procedures and responsive UI components to automate payroll and employee data processing. Improved data Flow efficiency between the frontend and backend for smoother system operation.

- **Product Catalog Module:**

  Built a dynamic Product Catalog module with search, filtering, and reporting features using MVC, SQL, JQuery and AJAX. Designed backend logic and interactive UI components to display and manage product data efficiently, similar to an e-commerce platform.

- **Task Tracker**:

  Developed a Task Tracker application with role-based access to assign, monitor, and manage team tasks. Implemented MVC views and workflow logic to track task status, progress, and responsibilities, enhancing team productivity and visibility.

ACHIEVEMENTS:

- SQL(Basic) Certificate – "HackerRank".
- Certified from forage Accenture Data analytics and visualization job simulation.
- Earned 5-star ranking SQL in hacker rank.
- Participated in one one-day Skill Development Program organized by ICFAI Tech.
- Certificate of Appreciation from "USP The Survivor 4" organized by Tula's Institute Dehradun.
