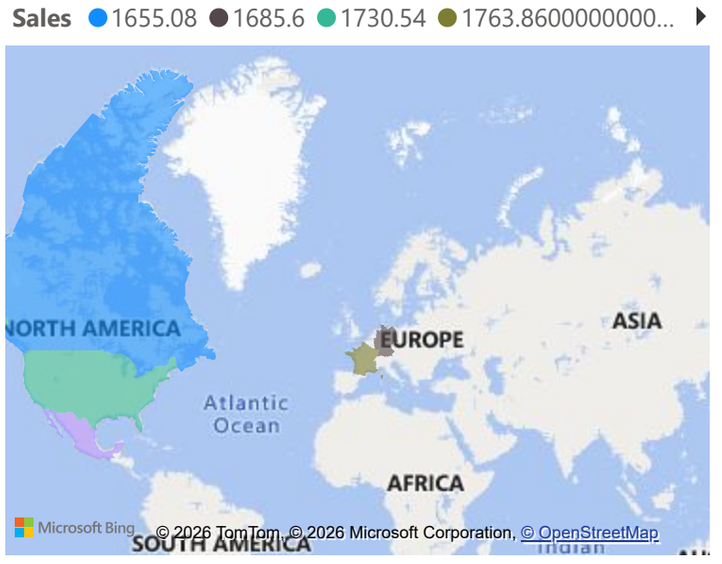
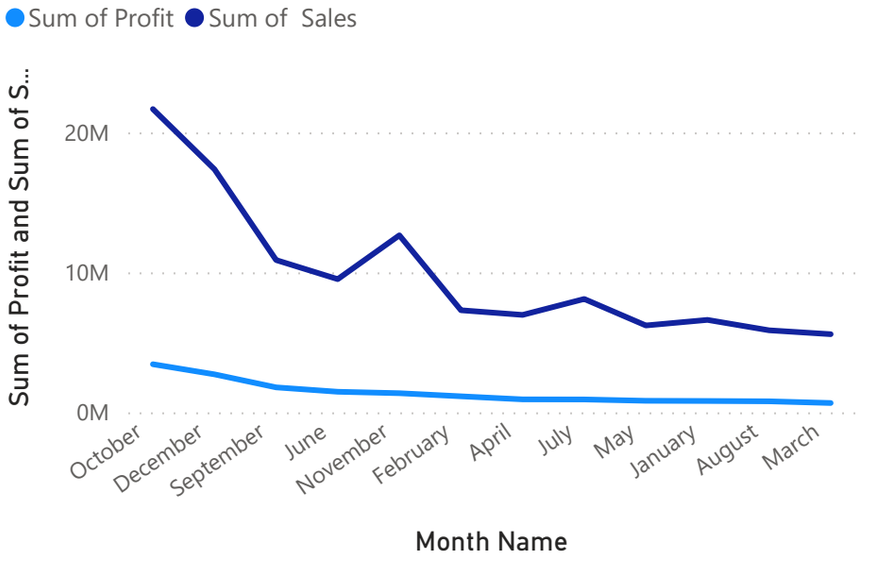
Average of Sales by Country and Sales



Sum of Profit and Sum of Sales by Month Name



KPI Cards (Top Section)

- **Sum of Sales (119M):** Shows the total revenue generated across all regions, products, and segments.
- **Sum of Gross Sales (128M):** Represents total sales before deductions, helping compare gross performance vs net sales.
- **Sum of Units Sold (1M):** Indicates overall sales volume, useful to understand demand.
- **Sum of Profit (17M):** Displays total profit earned, reflecting business profitability.

Sum of Sales by Segment (Pie Chart)

- Sales are mainly driven by the **Government segment (44%)**, followed by **Small Business (36%)** and **Enterprise (17%)**, indicating strong dependence on institutional customers.

Sales by Category (Bar Chart)

- **VTT and Amarilla** are the top-performing categories.
- **Velo and Paseo** contribute moderately, while **Montana and Carretera** have minimal sales impact.

Sum of Sales and Sum of Profit by Country (Map)

- Visualizes geographic performance.
- **United States** leads in both sales and profit, followed by **Canada, France, Germany, and Mexico**, highlighting North America as the strongest market.

Sum of Sales by Product (Donut Chart)

- Sales are evenly distributed across products like **VTT, Amarilla, Carretera, Montana, Paseo, and Velo**, each contributing around **17%**, showing a balanced product portfolio.

Sum of Profit and Sum of Sales by Month Name (Line Chart)

- Shows monthly trends of sales and profit.
- Both metrics peak around **October–December** and gradually decline afterward, indicating **seasonal sales behavior**.

Sum of Gross Sales and Sum of COGS by Month Name (Line Chart)

- Compares revenue with cost over time.
- Gross sales consistently remain higher than COGS, confirming **stable margins**, with higher activity in the last quarter.

Sales by Subcategory (Bar Chart)

- **United States and Canada** lead with the highest sales (25M each).
- France and Germany follow closely, while Mexico shows comparatively lower sales.
